

# FDRVIEWS... Turning Raw Data Into Smart Decisions

## OVERVIEW

FDRVIEWS provides a clear and concise view of your mainframe Storage. Utilizing the VTOC, VVDS, User Catalogs, ABR catalog ABR Archive Control File, and DFSMSshm MCDS and BCDS as data sources. FDRVIEWS produces information which feeds various analytical spreadsheets which are provided.

These can be viewed and manipulated or printed as Bar Charts, Pie Charts, Dashboards, etc.

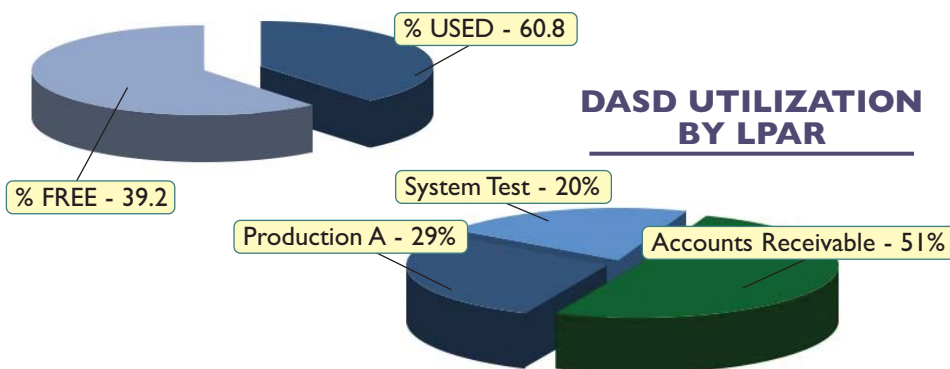

## KEY HIGHLIGHTS

- FDRVIEWS snapshots your z/OS DASD subsystems on your schedule
- System data is stored in an SQL database for quick access and data portability
- Analysis can be performed by LPAR, Storage Group, User/Group, Department, or any user defined entity
- Over 100 pre-formulated queries, in the form of simple questions, are supplied to guide your investigations
- Tight integration with Microsoft Office applications enables a short learning curve

## SUMMARY

As you can see, the FDRVIEWS product provides a simplified user interface to query and analyze your existing z/OS DASD subsystem data. The product will provide you with new and timely insights into your z/OS storage environment.
